# Ermak 25

The firefighting backpack ERMAK 25 serves for fighting of small fires, blazing of forest undergrowth and as equipment of patrols after fire liquidation or during burning the brushwood following the forest exploitation. It is a suitable equipment of fire tankers, off-road vehicles during visual inspections of forest grounds in dry months or as prevention the combine harvesters during harvests.

Firefighting backpack ERMAK 25 is designed and manufactured without compromises. In its design, we put all our experiences we have gained from the development of firefighting water backpack Ermak 20 which is on the market more than 10 years and is used by professional firefighters and volunteers in the Czech Republic, many countries in EU and beyond its borders. Ermak 25 is designed in Czech Republic, manufactured in our workshop and by our hands.

The bigger brother inherited his best features. Double action handheld pump with surface finish offers very light stroke. The handheld pump is terminated by metal nozzle for regulation of flow. Two layer 3D design with robust waterproof outer layer in red or yellow color. Inner layer made of fabric coated by PVC. The double soft dorsal pad guarantees comfort and protects yours back against the cold water. Comfortable harness system guarantees comfort and offers wide range of settings for yours backs. Harness system is consists of fully adjustable wide shoulder, waist and sternum straps. The large cap enables easy filling of water without removing. The cap is permanently attached to the backpack. The big plastic handle for easy handling with filled backpack. The big storage pocket with clips for handheld pump or other tools.
