

NEW! Comfort-suspenders for FIRE MAX 3 trousers

The new comfort-suspenders have been specifically designed as an accessory for the FIRE MAX 3 trousers and are especially characterized by following features:

- wide padding in the shoulder region to eliminate unwanted slippage
- increased elasticity and enhanced rubber straps (width of 5 cm)
- adjustable and easily removable
- machine washable at 60 °C (gentle cycle)

These comfort-suspenders are only available as **additional accessory equipment** – it's not possible to replace standard-suspenders with comfort-suspenders when the original FIRE MAX 3 trousers are delivered.

Order data and sizes

The new developed comfort-suspenders are generally available in three lengths B, C and D. If standard sizes do not fit, an individual length is also possible.

141189B	for all sizes in length B (analogue to trousers length)
141189C	for all sizes in length C (analogue to trousers length)
141189D	for all sizes in length D (analogue to trousers length)
14118999	for individual length (particularly also length A, E, ...)

Standard length B, C and D will be available on stock in Leonding from the end of May. Please see attached data sheet for more details.
